---

## SUMMARY

- Dynamic and results-driven Java Software Developer with a strong foundation in Core Java, Node.js, and full-stack web development. Proficient in backend engineering, database management, and delivering scalable, real-world software solutions with a keen eye for innovation and performance.

## EDUCATION

---

B.TECH – Information Technology

Shree Venkateshwara Hi-Tech Engineering College ( III - Year ) CGPA : 9.35

2023 - 2027

Government Higher Secondary School Kannipatty . HSC - 80.01%

2020 – 2022

## EXPERIENCE

- Participated in the 24-hours National Level Hackathon on 29th October 2024 .
  - Participated in a 7-day intensive Cybersecurity seminar conducted at Anna University.
- 

## PROJECTS

### AGRI WASTE TO WEALTH :

- Built a Node.js-based web application to collect agricultural waste from farmers and convert it into usable organic products.
- Implemented backend functionality and data management using JavaScript and Node.js.
- Contributed to promoting sustainable agriculture and waste-to-wealth solutions.

### UNDERGROUND CABLE FAULT PREDICTION :

- Built an ESP32-based IoT system with current, temperature, vibration, and voltage sensors to monitor underground cable health in real time, using an Isolation Forest AI .
  - Developed a Flask web dashboard for live sensor visualization and engineered a hardware alert mechanism.
- 

## TECHNICAL SKILLS

### Programming Languages:

- JAVA
- PYTHON
- JAVASCRIPT

### FRONT END :

- REACT

### Backend Technologies:

- NODE.JS
- SPRING BOOT

### DATABASE :

MYSQL MONGODB

## CERTIFICATION

- SHRITEK INNOVATION - HACKATHON – Healthcare and assistance for patience with medical officers.
- Certified Participant & Best Performance Award – 7-Day Cybersecurity Seminar, Anna University (2025).
- Participated in a hackathon at Dhanalakshmi Srinivasan College of Engineering and Technology (DSCET), collaborating in a team to develop an innovative technical solution.
- Participated in a Hackathon at Velammal College, contributing to a team project titled Agri Waste to Wealth.
